At Gokul Agro Resources Limited (GARL), we believe nourishment plays a very important role in creating a healthy and prosperous society. Our well-known product brands have always focused on winning the hearts of millions of households in India and many other countries of the world by offering quality products that deliver great taste and nutritional benefits.

Delivering customer delight has been the cornerstone of our business expansion in all these years, and will continue to drive our future growth strategies.

Our global and national footprint spans a wide array of edible oils for various uses - cooking, baking, sweets and confectionaries. Our strategy is to differentiate and diversify our portfolio, supported by a strong backward integration and high-end manufacturing and technological capabilities. We are also expanding our distribution network and brand visibility to grow our market share in existing markets as well as foray into newer geographies in India and overseas.

The global demand for our products continues to improve as economies gradually regain their growth momentum. In the backdrop of such a scenario, the diversity of our brands, esteemed national and international clients, best-in-class manufacturing facilities, strong distribution footprint and robust balance sheet will enable us to sustain our growth momentum in the coming years.

Passionate people

Our people strengthen our resolve to build a stronger Company. Their passion to learn, build innovative and produce quality products continue to make a positive contribution to our long-term business strategy.

1000+

Employees in India and abroad

Diverse offerings

Our rich product portfolio across vegetable oil and derivatives such as edible oil and de-oiled cake under leading brands, enable us to cover a wider market share. Over the years, we have steadily diversified our product mix to increase our retail presence across edible and non edible segment.

Distribution and supply chain

Our well-established network of C&F agents, distributors, dealers, depots and resellers continue to enhance our market share. A detailed ground report by our distribution and marketing team ensures optimum inventory management and product availability at all times.

500+

Distributors as on March 31, 2022

Strategic plant locations

Our manufacturing units are strategically located close to raw material sources, ensuring enhanced cost savings with logistic benefits. The manufacturing units in Gujarat also aid in continuous exports of our products with proximity to ports and access to several international countries.

Rapid strides towards new milestones

Chairman's Message

Message from the corner office

Dear Shareholders,

I feel happy to reach out to you at a time when the Covid-19 pandemic is largely behind us. While the new variants continue to cause some disruption in our lives and livelihood, it is indeed a comforting feeling to know that the impact is minimal, as compared to two years ago. We must take a moment to recognise the Government of India's efforts to vaccinate a larger part of the population in the country and provide fiscal stimulus measures, which has helped businesses revive and the economy to recover.

Amidst the challenges, international prices for edible oil came under pressure for a major part of the fiscal year under review. A shortfall in global production and increase in export levies by exporting countries were major reasons for volatility in prices. Further, Indonesia's ban on the export of palm oil in May 2022, was one of the major steps of crop protectionism since Russia's invasion of Ukraine in February 2022, and it curtailed exports of sunflower oil and worsened the already existing global shortage.

However, India's imports of vegetable oil have been on a decline in the last three years. Favourable regulatory policies for multiple industries, including vegetable oil and ancillary products, are pushing the country towards 'Atmanirbharta' or self-reliance. The launch of the National Mission on Edible Oils - Oil Palm (NMEO-OP) will further augment the availability of edible oils in the country by harnessing area expansion and increasing crude palm oil production, with the aim to reduce the import burden. But, as the consumption of vegetable oil continues to outpace production, imports are expected to play a critical role in bridging the demand in the near term.

Looking back at the exceptional year, few things stand out for me. First, our resilient and integrated business model that continued to serve our large customer base, despite macroeconomic challenges. The strategic plant location, with proximity to port, provide us a competitive edge for sourcing raw materials and expand our market presence (to domestic and international regions).

India's imports of vegetable oil have been on a decline in the last three years. Favourable regulatory policies for multiple industries, including vegetable oil and ancillary products, are pushing the country towards 'Atmanirbharta' or self-reliance.

Second, we have significantly invested in our product mix, introducing new products with higher yields. The new products are a testament to our sustained efforts in R&D and meeting the changing needs of our clients. Third, our financial prudence has resulted in encouraging financial performance in the current fiscal. While the topline and bottomline have grown in double digits, the balance sheet metrics have strengthened. Going forward, I expect these numbers to further improve, backed by our efficient operations and widening market presence.

India's consumer food prices continued to rise in FY 2022, with prices soaring for all the products. This was led by rise in commodity prices globally, supply chain issues and rising biofuel prices. Despite the oilseed production in India growing by a staggering 43% from 2015-16 to 2020-21, oil production in India has

lagged behind its growing consumption trajectory, necessitating import of edible oils, making India the world's second largest consumer and number one importer of vegetable oil. These statistics when merged with the increasing urbanisation, dietary habits and shift towards processed foods (that contain high content of vegetable oil), augurs well for your Company's long-term growth.

We are increasing our wallet share with leading FMCG companies for our B2B business, and growing the market presence of our branded products in direct consumer space. We are taking rapid strides to improve our production across our product portfolio. Our sustained investments in increasing our capacities will also help meet the rising demand within the country as well as expand our export share.

In conclusion, I wish to extend my sincere gratitude to the Board of Directors for their continued support and guidance. I also want to recognise the hard work of our employees and their unwavering commitment towards your Company's long-term vision. Together with the support and guidance of all our stakeholders, we are confident of accelerating our growth journey, emerge stronger and contribute towards ushering in a 'yellow revolution' in the country.

ESG commitments

Foundation of our sustainable growth charter

In today’s ever-changing world, our continued emphasis on Environment, Sustainability and Governance (ESG) priorities has created the foundation of our sustainable and long-term growth charter. These priorities encompass conserving the environment and natural resources, reducing carbon footprint, uplifting communities and putting in place a strong governance framework.

Environment

We have long understood that long-term business sustainability is built on the foundation of sustainable business and operational practices. At GARL, we mitigate environment risks like hazardous wastes, waste water and greenhouse gas emissions with prudent measures in place. Several best-practices are in place to control waste generation, recycle water, strengthen bio-diversity and ensure energy conservation. We also ensure environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agro-forestry, conservation of natural resources and maintain optimum quality of soil, air and water.

conservation activities
in FY22

Social

Gokul Agro Resources Limited (GARL) understands its responsibility towards society and is initiating small but significant steps in bringing positive changes towards community development. Our CSR policy is a strategic tool for sustainable growth that channelises our funds for social activity and integrate business processes with social processes.

We also promote gender equality and women empowerment and regularly initiate measures for reducing inequalities faced by socially and economically backward groups.

We have set up a 14 bed hospital with ICU and ambulance facilities at Anjar.

157.73 lakhs

Spent on CSR activities in FY22

Empowering farmers

We extend our support to the farmers of the country by empowering them with farming means, which may also include educational initiatives and other measures.

Supply chain partners

We engage with our supply partners closely, working on multiple aspects of sourcing and quality raw material.

Diversity & Inclusion

Our policies aim to create a diverse workforce by not discriminating at any level and inculcating talent by providing equal opportunities

Building communities

Our programs are structured in such a way so as to help local communities strive social causes that bring upon difficult times

Supporting institutions

We extend our hand in supporting institutional planning by engaging with various stakeholders and gathering various ideas, evaluating them and implementing to make a better tomorrow

Governance

GARL is committed to complying with the highest standards of corporate governance to promote corporate transparency and to create long-term value. At GARL, we will continue to strengthen our corporate governance to meet the current and future business challenges. Our Board guides through policies for robust governance practices and strategies.

The instructions for e-voting are given herein below. Resolution(s) passed by Members through e-voting is/are deemed to have been passed as if they have been passed at the AGM.

14. The Board of Directors has appointed Mr. Chirag Shah of M/s Chirag Shah & Associates, Practicing Company Secretaries (Membership No. FCS 5545) as the Scrutinizer to scrutinize the voting during the AGM and remote e-voting process in a fair and transparent manner.

THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING AND E-VOTING DURING AGM/EGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

- (i) The voting period begins on 26th September, 2022 at 09.00 a.m. and ends on 29th September, 2022 at 5.00 p.m. During this period shareholders’ of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Friday, 23rd September, 2022 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed

entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders’ resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Management Discussion and Analysis

Indian Economic Overview

For the year under review, the Indian economy has demonstrated an exceptional resilience in the face of adversities brought-up by various reasons such as inflationary headwinds, supply-chain bottlenecks, Geo-political tensions and continuance of Covid in many parts of the world. This has been enabled by the adequate and timely fiscal and monetary measures by the government and have brought India back on the track as one of the the fastest growing economy in the world.

A decline in growth in early 2022 counterbalanced the release of pent-up demand late last year during the pandemic's mid-2021 wave, resulting in 8.7% growth in the fiscal year 2021-22, which concluded in March 2022. There has been a steady recovery in the market due to escalating industry indicators and persistent demand. The recovery is also significantly aided by constant investments and continued government support through beneficial policies and initiatives, such as the Make in India project and various PLI schemes.

Despite the variations in how all sectors operate, the domestic market is well-positioned to achieve its year-end goals. The increase in government revenue and the following rise in government spending, particularly on infrastructure development, account for this. The Indian government is focused on adopting numerous supply-side measures, which include sector deregulation and the elimination of retroactive taxes in order to promote the economic growth.¹

Outlook

Global growth is anticipated to drop to 3.3 percent in 2023. Inflation is expected to be 5.7 percent in advanced nations, and 8.7 percent in emerging and developing markets in 2022 majorly due to much increased commodity prices brought on by the war. . Multilateral initiatives are required to be put into action to address the humanitarian crisis, stop further economic slowdown, support global liquidity, manage debt distress, and combat climate change. In addition to a significant global economic downturn and a steep rise in inflation in 2022, the economic consequences of the conflict will also have those impacts. The steep gasoline and food prices spike have disproportionately hurt the most disadvantaged people in low-income countries. From 6.1 percent in 2021 to 3.6 percent in 2022 and 2023, it is predicted that the global economy will continue to contract further².

Industry Overview

Presently, India is the top importer of edible oil worldwide. The demand for edible oil in India is driven by several important reasons, such as growing disposable incomes, rising rate of urbanisation, changing dietary preferences, and the expansion of the food processing industry.

The need for healthy edible oil in India is mainly driven by the growing consumer health concerns around the increasing prevalence of coronary heart diseases, diabetes, obesity, and gastrointestinal problems. The industry is also being stimulated by the increased public awareness of the numerous health advantages of organic and low-cholesterol edible oil. As a result, several local firms are introducing omega-3, vitamin, and natural antioxidant-rich product versions of edible oil. Additionally, the consumption of processed food has increased due to changing consumer dietary habits and busy work schedules, which has further push as the demand for ingredients including edible oil.

The country's market is expanding due to the increased demand for edible oil in the food processing industry as food preservatives and flavouring agents as well. The need for high-quality products like olive oil, sesame oil, and flaxseed oil is also expanding as consumer living standards rise and global culinary styles become more widely adopted. In addition, the market is being spurred by the growing agricultural sector and the introduction of several efforts to increase the nation's output of oilseeds.

Additionally, the Indian government is working continually to reduce its reliance on imports and improve the domestic edible oil supply. To address the country's consumption needs for edible oils such as sesame oil, groundnut oil, safflower oil, and palm oil, the government has proposed the National Mission on Edible Oil (NMEO).

However, due to the temporary suspension of numerous oil production units, restrictions on import operations, and a lack of raw materials, lockdowns induced by the COVID-19 pandemic breakout in early 2020 damaged the supply chains of edible oil. Furthermore, the country's hotels, restaurants, canteens, and public food establishments had to temporarily close due to the national lockdown, which had a detrimental impact on the demand for edible oil. However, once normalcy returns, the demand is anticipated to revive as the markets rebound³.

Opportunities

- The Government of India is taking measures to increase the domestic production of edible oil seeds. Initiatives like 'National Mission on Edible Oils' and 'Oil Palm Programme', increasing the minimum support prices of oilseed crops, creation of buffer stock for oilseeds are being implemented by the Government to boost the production
- There is a continuously increasing edible oil demand due to rapid urbanisation, changing dietary patterns and the growth of the food processing sector
- India's population and low per capita consumption is continuously increasing which will boost the sector significantly

Threats

- The shifting consumer preferences from the Company's products to another peer is a constant threat
- Rising raw material prices owing to global uncertainties can pose a near term threat to the Company's production cost

Audit and Internal Controls

GARL has created procedures and clearly defined roles and duties for individuals at all levels and provides correct information flow for decision-making, together with suitable internal information systems included in business automation software. Internal audits are conducted often to make sure that these procedures are followed. The Executive Committee regularly assesses performance concerning budgets to monitor company operations.

A comprehensive internal auditing programme strengthens internal controls which are carried out by the internal audit team, approved by the Audit Committee and relevant guidelines. The purpose of the internal control system is to guarantee the accuracy of financial and other records that are used to prepare financial statements and other reports. By following these steps, every transaction is recorded and categorised correctly in the financial records.

Risk Management

The Company has a transparent methodology to guarantee proper risk identification and management. The annual planning cycle is linked to the risk identification procedure, ensuring regularity and thoroughness. The risk is identified at the strategic, business, operational, and process levels. Operating managers are responsible for developing and implementing mitigation plans for the remaining risks, as opposed to senior leadership, who is responsible for the strategic, business, and significant operational risks.

The main business, operational, and strategic risks that substantially influence the Company's overall goals are presented and reviewed at periodic board meetings with the progress of their mitigation strategies.

The Company seeks to keep risks within its appetite through its risk management methodology. According to the Board, there are no dangers that endanger the Company's operations or survival.

Human Resource

Throughout the year under review, the Company continues to make strides towards improving HR processes and practices to build the organisation for long-term sustainability. The Company emphasises on fostering personal growth and development within an environment that promotes professionalism and excellent performance. The Company has focused on developing staff capabilities as this will enable it to achieve higher operational standards. The Company sponsors a variety of seminars time-to-time to help employees grow. Additionally, the Company also organises various training programmes to improve employees' abilities.

Commodity price risk and hedging activities

Company uses risk mitigation tools such as agro-commodity futures to manage price risk. Globally, commodity exchanges like the Chicago Board of Trade (CBOT) have significantly higher volumes than the equity exchanges in the country, but domestic exchanges have low volumes and have traditionally been technologically inferior to their international counterparts. Nationwide commodity exchanges have come up recently such as the National Commodity and Derivatives Exchange (NCDEX) and Multi-Commodity Exchange (MCX), which are trying to match international standards of connectivity and scalability. Nevertheless, a significant proportion of domestic players still do not hedge their positions, leading to high volatility in margins. The Company also uses forward currency covers for imports and exports to hedge against currency risks.

Foreign exchange risk and hedging activities

The Company is exposed to foreign exchange risk on account of import of various raw materials used in its production and technology products imported and sold, and other important export transactions. To reduce this risk the Company constantly evaluates its business plan and opportunities for localization for reducing this risk in

the long-term. Hedging is also used as a tool to manage the foreign exchange risk.

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of GOKUL AGRO RESOURCES LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of Significant Accounting Policies and other Explanatory Information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total

comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context.

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
1	<p>Revenue Recognition</p> <p>Material estimation by the Company is involved in recognition and measurement of its revenue. The value and timing of revenue recognition for sale of goods varies from contract to contract, and the activity can span beyond the year end.</p> <p>Revenue from sale of goods is recognized when control is transferred to the customers and when there are no other unfulfilled obligations. This requires detailed analysis of each sale agreement/ contract /customer purchase order regarding timing of revenue recognition.</p> <p>Inappropriate assessment could lead to a risk of revenue being recognized on sale of goods before the control in the goods is transferred to the customer.</p> <p>Subsequent adjustments are made to the transaction price due to grade mismatch/slippage of the transferred goods.</p>	<p>Our audit procedures to assess the appropriateness of revenue recognized included the following;</p> <p>Our audit procedures, considering the significant risk of misstatement related to revenue recognition, included amongst other:</p> <ul style="list-style-type: none"> - Obtaining an understanding of an assessing the design, implementation and operating effectiveness of the Company's key internal controls over the revenue recognition process. - Examination of significant contracts entered into close to year end to ensure revenue recognition is made in correct period. - Testing a sample of contracts from various revenue streams by agreeing information back to contracts and proof of delivery as appropriate and ensure revenue recognition policy is in accordance with principles of Ind AS 115.

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
	<p>The variation in the contract price if not settled mutually between the parties to the contract is referred to third party testing and the Company estimates the adjustments required for revenue recognition pending settlement of such dispute.</p> <p>Such adjustments in revenue are made on estimated basis following historical trend.</p> <p>Inappropriate estimation could lead to a risk of revenue being overvalued or undervalued.</p> <p>Accordingly, timing of recognition of revenue and adjustments for coal quality variances involving critical estimates is a key audit matter.</p>	<p>Our testing as described above showed that revenue has been recorded in accordance with the terms of underlying contracts and accounting policy in this area.</p>
2	<p>Inventory:-</p> <p>The carrying value of inventory as at 31st March 2022 is Rs. 588.49 crore. The inventory is valued at the lower of cost and net realizable value except raw material which is stated at cost.</p> <p>We considered the value of inventory as a key audit matter given the relative size of its balance in the financial statements and significant judgment involved in the consideration of factors in determination of selling prices such as fluctuation of raw materials prices in the market and in determination of net realizable value. (Refer Note No. 8 to the Standalone Financial Statement)</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory. - Assessing the appropriateness of Company's accounting policy for valuation of stock-in-trade and compliance of the policy with the requirements of the prevailing Indian accounting standards. - We considered various factors including the actual selling price prevailing around and subsequent to the year-end. - Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value. <p>Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.</p>
3	<p>Carrying Value of Trade Receivables and Advances:-</p> <p>The collectability of the company's Trade Receivables and Advances (Including Trade Advances), the valuation of allowance for impairment of trade receivables and provision for bad and doubtful debt require significant management judgment. As per the current assessment of the situation based on the Internal and external information available up to the date of approval of these financial results by the Board of Directors, the Company believes that there is no indication of any material impact on the carrying value.</p> <p>Management uses this information to determine whether a provision for impairment or for bad debt is required either for a specific transaction or for a customer's balance overall. Accordingly, it has been determined as a key audit matter.</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We assessed a sample of trade receivables and advances. - We assessed the ageing of trade receivables and advances, the customer's historical payment patterns and whether any post year-end payments have been received up to the date of completing our audit procedures. - We also discussed with the management regarding any disputes between the parties involved, attempts by management to recover the amounts outstanding and on the credit status of significant counterparties wherever available. <p>In assessing the appropriateness of the overall provision for impairment, we considered the management's application of policy for recognizing provisions.</p> <p>We assessed the Company's provisioning policy and comparing the Company's provisioning against historical collection data.</p> <p>Based on our procedures, we also considered the adequacy of disclosures in respect of trade receivables and advances in the financial statements.</p>

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
4	<p>Assessment of litigations and related disclosure of contingent liabilities</p> <p>(Refer to Note 3.12, significant accounting policies to the Standalone financial statements)</p> <p>“Use of estimates and critical accounting judgements – Provisions and contingent liabilities”, Note 33 to the Standalone Financial Statements – “Contingencies”</p> <p>Significant management judgement is required to assess the contingent liabilities to determine the probability of occurrence of material outflow of economic resources and whether a provision should be recognized or a disclosure should be made. The management judgement is also supported with legal advice in certain cases as considered appropriate. Therefore, it is considered to be a Key Audit Matter.</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We understood, assessed and tested the design and operating effectiveness of key controls surrounding assessment of litigations relating to the relevant laws and regulations; - We discussed with management and those charged with the governance, the recent developments and the status of the material litigations which were reviewed and noted; - We performed our assessment on a test basis on the underlying calculations supporting the contingent liabilities/other significant litigations disclosed in the Standalone Financial Statements; - We considered external legal opinions, where relevant, obtained by management; - We evaluated management’s assessment around those matters that are not disclosed or not considered as contingent liability, as the probability of material outflow is considered to be remote by the management; and - We assessed the adequacy of the Company’s disclosures. <p>Based on the above work performed, the assessment in respect of litigations and related disclosures relating to contingent liabilities/other significant litigations in the Standalone Financial Statements is considered to be reasonable.</p>

Information Other than Standalone Financial Statements and Auditor’s Report Thereon

The company’s Board of Directors are responsible for the preparation and presentation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including the Annexure to the board’s Report, Share Holder’s Information etc., but does not include the standalone financial statement and auditor’s report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is material misstatement of this information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of the Management and those charged with the Governance for the Standalone Financial Statements

The Company’s Board of Directors of the Company are responsible for the matters stated in section 134(5) of the Act with respect to the presentation of these standalone financial statement that gives a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity, and cash flows of the company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the act for safeguarding of the assets of the company and for preventing and detecting fraud and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are also responsible for assessing the Company's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty

exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:-
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- (c) The Balance Sheet, the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of Change in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on 31st March, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure - A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls over financial reporting.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer Note No.33 to the Standalone Financial Statement.
- (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.
- (iv) (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or

loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- (v) The company has not declared or paid dividend during the year, hence compliance with section 123 of the Companies Act, 2013 is not applicable.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure - B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure - A

"Annexure A" to the Independent Auditor's Report of even date on the Standalone Financial Statements of Gokul Agro Resources Limited

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **GOKUL AGRO RESOURCES LIMITED ("the Company")** (CIN- L15142GJ2014PLC080010) as of March 31st 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating

effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls,

material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2022, based on the internal control over financial reporting criteria

established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

Note 1 : CORPORATE INFORMATION

Gokul Agro Resources Limited (the company) is a public limited company and listed on Bombay Stock Exchange (BSE) & National Stock Exchange (NSE), domiciled in India and incorporated under the provisions of the Companies Act, 2013. The company is engaged in business of Manufacturing & Trading of Edible & Non-Edible Oil, Meals and other Agro Products.

Note 2 : BASIS OF PREPARATION

a) Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

b) Functional and presentation currency

These financial statements are presented in Indian rupee, which is the Company's functional currency, unless otherwise indicated.

c) Basis of measurement

The financial statements have been prepared on historical cost basis, except certain financial assets and liabilities which have been measured at fair value, defined benefits plan and contingent consideration. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle to be of 12 months for the purposes of current / non-current classification of assets and liabilities.

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- a. Expected to be realized or intended to be sold or consumed in normal operating cycle
- b. Held primarily for the purpose of trading
- c. Expected to be realized within twelve months after the reporting period, or
- d. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- a. It is expected to be settled in normal operating cycle
- b. It is held primarily for the purpose of trading
- c. It is due to be settled within twelve months after the reporting period, or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Note 2A : USE OF ESTIMATES

The preparation of financial statements requires the use of accounting estimates which, by definition, will often equal the actual results. Management also needs to exercise judgment in applying the group's accounting policies. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be adjusted due to estimates and assumptions turning out to be different from those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical estimates and judgments

The areas involving critical estimates or judgments are:

- a) Estimation of current tax expense and payable – Refer accounting policies - 3.9
- b) Estimated useful life of property, plant & equipment and intangible assets – Refer accounting policies -3.1
- c) Estimation of defined benefit obligation – Refer accounting policies -3.8
- d) Estimation of fair values of contingent liabilities - Refer accounting policies -3.12
- e) Recognition of revenue - Refer accounting policies - 3.4

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

- f) Recognition of deferred tax assets for carried forward tax losses – Refer accounting policies -3.9
- g) Impairment of financial assets – Refer accounting policies - 3.2 & 3.5

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

Note 3 : SIGNIFICANT ACCOUNTING POLICIES

3.1 Property, plant and equipment:

Property, plant and equipment are stated at original cost net of tax / duty credit availed, less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price and all other attributable cost of bringing the asset to working condition for intended use. Finance costs relating to borrowing funds attributable to acquisition of fixed assets are also included in the cost, for the period till such asset is put to use.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company derecognizes the replaced part, and recognizes the new part with its own associated useful life and it is depreciated accordingly. Where components of an asset are significant in value in relation to the total value of the asset as a whole, and they have substantially different economic lives as compared to principal item of the asset, they are recognized separately as independent items and are depreciated over their estimated economic useful lives.

All other repair and maintenance costs are recognized in the statement of profit and loss as incurred unless they meet the recognition criteria for capitalization under Property, Plant and Equipment

Tangible Fixed Assets:

Depreciation on tangible assets is provided on the Straight-Line Method (SLM) over the useful life of the assets as prescribed under Schedule II to the Companies Act, 2013. In respect of the fixed assets purchased during the year, depreciation is provided on pro rata basis from the date on which such asset is ready to be put to use.

Intangible Assets:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses (if any).

An item of intangible asset initially recognized is derecognized upon disposal or when no future economic

benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset [calculated as the difference between the net disposal proceeds and the carrying amount of the asset] is included in the income statement when the asset is derecognized. Intangible fixed assets are amortized on straight line basis over their estimated useful economic life.

Capital Work- in- progress

Capital work- in- progress represents directly attributable costs of construction to be capitalized. All other expenses including interest incurred during construction period are capitalized as a part of the construction cost to the extent to which these expenditures are attributable to the construction as per Ind AS-23 "Borrowing Costs". Interest income earned on temporary investment of funds brought in for the project during construction period are set off from the interest expense accounted for as expenditure during the construction period.

Right of Use of asset

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset.

Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

3.2 Impairment of non-financial assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the Company measures it on the basis of discounted cash flows of next five years' projections estimated based on current prices. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

3.3 Foreign Currency Transactions

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items, which are measured in terms of historical costs denominated in foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements including receivables and payables which are likely to be settled in foreseeable future, are recognized as income or as expenses in the year in which they arise. All other exchange differences are recognized as income or as expenses in the period in which they arise.

Transactions covered under forward contracts are accounted for at the contracted rate. All export proceeds have been accounted for at a fixed rate of exchange at the time of raising invoices. Foreign exchange fluctuations as a result of the export sales have been adjusted in the statement of profit and loss account and export proceeds not realized at the balance sheet date are restated at the rate prevailing as at the balance sheet date.

3.4 Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Specifically,

- (i) Sale of goods is recognized on transfer of significant risk and rewards of ownership which is generally on shipment and dispatch to customers.
- (ii) Revenue/Loss from bargain settlement of goods is recognized at the time of settlement of transactions.
- (iii) Export benefits/Value added tax benefits are recognized as Income when the right to receive credit as per the terms of the scheme is established and there is no significant uncertainty regarding the claim.
- (iv) For all debt instruments measured either at amortized cost or at fair value through other comprehensive income [OCI], interest income is recorded using the effective interest rate [EIR]. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument [for example, prepayment, extension, call and similar options] but does not consider the expected credit losses.
- (v) Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.
- (vi) Share of profit and loss from partnership firm is recognized when company's right/obligation to receive/pay is established.
- (vii) Dividend income from investments is recognized when the Company's right to receive payment is established which is generally when shareholders approve the dividend.

3.5 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

a. Initial recognition and measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place [regular way trades] are recognized on the settlement date, trade date, i.e., the date that the Company settles commits to purchase or sell the asset.

b. Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortized cost:

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held with an objective of collecting contractual cash flows
- Contractual terms of the asset give rise on specified dates to cash flows that are "solely payments of principal and interest" [SPPI] on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate [EIR] method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

ii. Debt instruments at fair value through other comprehensive income [FVTOCI]:

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The asset is held with objective of both - for collecting contractual cash flows and selling the financial assets
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income [OCI]. However, the Company recognizes interest income,

impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss [FVTPL]:

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

iv. Equity instruments measured at fair value through other comprehensive income [FVTOCI]:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company has made such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

c. Derecognition:

A financial asset is primarily derecognized when:

- i. The Company has transferred its rights to receive cash flows from the asset or has

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either [a] the Company has transferred substantially all the risks and rewards of the asset, or [b] the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

- ii. The Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

B. Financial liabilities:

a. Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

b. Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

i. Financial liabilities at fair value through profit or loss:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied for liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not

subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

ii. Loans and borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

iii. Financial guarantee contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

c. Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

C. Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses [including impairment gains or losses] or interest.

D. Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

3.6 Fair Value Measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a. In the principal market for the asset or liability, or
- b. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted [unadjusted] market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.7 Inventories

Inventories are valued at the lower of cost or net realizable value except Raw Material, which is valued at the cost. The cost is determined by weighted average method. The net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

3.8 Retirement benefits

Retirement benefit costs for the year are determined on the following basis:

- (i) Company provides for Retirement Benefits in the form of Gratuity. Such Benefits are provided for as at Balance Sheet date, based on the valuation made by independent actuaries. Company has taken Group Gratuity Policy of LIC of India and Premium paid is recognized as expenses when it is incurred. Actuarial gains or loss in respect of Gratuity are charged to Profit & Loss Account and OCI based on the actuary valuation report.
- (ii) Provident fund is accrued on monthly basis in accordance with the terms of contract with the employees and is deposited with the Statutory Provident Fund. The Company's contribution is charged to profit and loss account.
- (iii) Company also provides for Leave Encashment as at Balance Sheet date, based on the valuation made by independent actuaries

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not classified to the statement of profit and loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset

3.9 Taxes on Income

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 and tax laws prevailing in the respective tax jurisdictions where the Company operates. Current tax items are recognized in correlation to the underlying transaction either in P&L, OCI or directly in equity.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Notes annexed to and forming part of the Standalone Financial Statements

For the year ended 31st March, 2022

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized on the basis of reasonable certainty that the company will be having sufficient future taxable profits and based on the same the DTA has been recognized in the books.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized, or the liability is settled, based on tax rates [and tax laws] that have been enacted or substantively enacted at the reporting date.

Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

The Company elected to exercise the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by The Taxation Laws (Amendment) Ordinance, 2019. Accordingly, the Company has recognized provision for Income Tax for the year ended 31st March, 2022 and re-measured the deferred tax liabilities / assets on the rates prescribed in the said section.

3.10 Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

Borrowing costs which are not specifically attributable to the acquisition, construction or production of a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a weighted average capitalization rate. The weighted average rate is taken of the borrowing costs applicable to the outstanding borrowings of the company during the period, other than

borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized cannot exceed the amount of borrowing costs incurred during that period.

3.11 Earnings per equity share

Basic earnings per share is calculated by dividing the net profit or loss from continuing operation and total profit, both attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

3.12 Provisions, Contingent Liabilities and Contingent Assets:

Provision is recognized when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that the outflow of resources will be required to settle the obligation and in respect of which reliable estimates can be made.

A disclosure for contingent liability is made when there is a possible obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision/disclosure is made. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognized in the financial statements. Provisions and contingencies are reviewed at each balance sheet date and adjusted to reflect the correct management estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets. Provisions, contingent liabilities, contingent assets and commitments are renewed at each balance sheet date.

3.13 Cash and Cash Equivalents

Cash and cash equivalent comprise cash on hand and demand deposits with banks which are short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.14 Exceptional items

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

Note 50 : Financial Instruments – Fair Values & Risk Management: (Contd..)

Measurement of Fair Values:

Valuation techniques and significant unobservable inputs:

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Note 51: Financial Risk Management Objectives & Policies:

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The company's financial risk management policy is set by the Managing Board. The Company's principal financial liabilities, other than derivatives, comprise borrowings and trade & other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's principal financial assets include Investments, loans given, trade and other receivables and cash & short-term deposits that derive directly from its operations. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

The company has exposure to the following risks arising from financial instruments: -

- (i) Market Risk
 - (a) Currency Risk
 - (b) Interest Rate Risk
 - (c) Commodity Risk
 - (d) Equity Risk
- (ii) Credit Risk and
- (iii) Liquidity Risk

Risk Management Framework

The Company's activities expose it to variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management is to minimize potential adverse effects of risk on its financial performance. The company's risk management assessment policies and processes are established to identify and analyze the risk faced by the company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's Activity. The Board of Directors and Audit Committee are responsible for overseeing these policies and processes.

In order to minimize any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency exposures. Derivatives are used exclusively for hedging purposes and not as trading/speculative instruments.

(i) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices, commodity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables and payables. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the returns.

For the year ended 31st March, 2022

Note 51: Financial Risk Management Objectives & Policies: (Contd..)

(a) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the profit and loss of the company, where any transactions has more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risk primarily relates to fluctuations in U.S. dollar and Euro, against the respective functional currencies (INR) of Gokul Agro Resources Limited.

The company, as per its risk management policy, uses its foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. The company does not use derivative financial instruments for trading or speculative purpose.

Exposure to Currency Risk

Refer Note no. 49 for foreign currency exposure as at March 31, 2022 and March 31, 2021 respectively.

Sensitivity Analysis: -

A 1% Increase/Decrease of the respective foreign currencies with respect to functional currency of company would result in increase or decrease in profit or loss as shown in the table below. The following analysis has been worked out based on the exposure as of the date of statement of financial position.

Currency	₹ in Lakhs			
	2021-22		2021-22	
	1 % Increase	1 % Decrease	1 % Increase	1 % Decrease
USD	-	-	215.47	-215.47

(b) Interest Rate Risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's exposure to market risk for changes in interest rates relates to borrowings from financial institutions. In order to optimize the company's position with regards to the interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

(c) Commodity Risk

The prices of agricultural commodities are subject to wide fluctuations due to unpredictable factors such as weather, government policies, changes in global demand resulting from population growth and changes in standards of living and global production of similar and competitive crops. During its ordinary course of business, the value of the Company's open sales and purchases commitments and inventory of raw material changes continuously in line with movements in the prices of the underlying commodities. To the extent that its open sales and purchases commitments do not match at the end of each business day, the Company is subjected to price fluctuations in the commodities market.

While the Company is exposed to fluctuations in agricultural commodities prices, its policy is to minimise its risks arising from such fluctuations by hedging its sales either through direct purchases of a similar commodity or through futures contracts on the commodity exchanges.

In the course of hedging its sales either through direct purchases or through futures, the Company may also be exposed to the inherent risk associated with trading activities conducted by its personnel. The Company has in place a risk management system to manage such risk exposure.

(d) Equity Risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of some of the Company's investments in Fair value through profit and loss account, securities exposes the Company to equity price risks. In general, these securities are held for trading purposes. These investments are subject to changes in the market price of securities.

Note 51: Financial Risk Management Objectives & Policies: (Contd..)

(ii) Credit Risk

Credit risk arises from the possibility that a customer or counter party may not be able to settle their contractual obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is significant increase in credit risk the company compares the risk of a default occurring and the asset at the reporting date with the risk of default as the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i. Actual or expected significant adverse changes in business.
- ii. Actual or expected significant changes in the operating results of the counterparty.
- iii. Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- iv. Significant increase in credit risk on other financial instruments of the same counterparty.
- v. Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

A. Trade and Other Receivables: -

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	₹ in Lakhs	
	As at 31st March, 2022	As at 31st March, 2021
Past due but not Impaired		
Past due up to 6 Months	20,439.03	30,958.30
Past due more than 6 Months (Including Prov. For Bad & Doubtful Debt)	23.68	1,049.00
Total	20,462.71	32,007.30

The ageing analysis of these receivables (gross of provision) has been considered from the date of the Invoice.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

No amount has been written off considering the ECL model as the above analysis had not resulted into any new allowance amount.

III. Provision for expected credit losses against "I" and "II" above:

The company has assets where the counter- parties have sufficient capacity to meet the obligations and where the risk of default is very low. Hence based on historic default rates, the Company believes that, no impairment allowance is necessary in respect of above mentioned financial assets, except otherwise stated above.

B. Cash and cash equivalents

The Company holds cash and cash equivalents with credit worthy banks and financial institutions of ₹2,613.74 Lakhs as at March 31, 2022 [FY 2020-2021 ₹ 2,835.06 Lakhs].The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

C. Derivatives

The derivatives are entered into with credit worthy banks and financial institution on counterparties. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

D. Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties apart from those already given in financials and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

(iii) Liquidity Risk

Liquidity Risk is defined as the risk that the company will not be able to settle or meet its obligations on time or at reasonable price. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation. The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecast on the basis of expected cash flows.

The Company has obtained fund and non-fund based working capital lines from various banks. The Company also constantly monitors various funding options available in the debt and capital markets with a view to maintaining financial flexibility.

As of March 31, 2022, the Company has working capital of ₹ 17,816.59 Lakhs [March 31, 2021 ₹ 9,406.48 Lakhs] including cash and cash equivalents of ₹ 2,613.74 Lakhs [March 31, 2021 ₹ 2,835.06 Lakhs] investments in term deposits (i.e., bank certificates of deposit having original maturities of less than 3 months & more than 3 months and less than 12 months) of ₹ 14,751.92 Lakhs [March 31, 2021 ₹ 11,516.00 Lakhs].

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited accompanying consolidated financial statements of GOKUL AGRO RESOURCES LIMITED ("the Company") (hereinafter referred to as the 'Holding Company') and its subsidiaries (including step-down subsidiaries (the parent and its subsidiaries together referred to as "the group") which comprise consolidated Balance Sheet as at 31st March 2022, and consolidated Statement of Profit and Loss, (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated Financial Statements, including a summary of Significant Accounting Policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at March 31, 2022, the consolidated

profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI"), together with the ethical requirement that are relevant to our audit of the consolidated financial statements under the provisions of the Act and Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
1	<p>Revenue Recognition: -</p> <p>Material estimation by the Group is involved in recognition and measurement of its revenue. The value and timing of revenue recognition for sale of goods varies from contract to contract, and the activity can span beyond the year end.</p> <p>Revenue from sale of goods is recognized when control is transferred to the customers and when there are no other unfulfilled obligations. This requires detailed analysis of each sale agreement/ contract / customer purchase order regarding timing of revenue recognition.</p>	<p>Our audit procedures to assess the appropriateness of revenue recognized included the following;</p> <p>Our audit procedures, considering the significant risk of misstatement related to revenue recognition, included amongst other:</p> <ul style="list-style-type: none"> - Obtaining an understanding of an assessing the design, implementation and operating effectiveness of the Company's key internal controls over the revenue recognition process. - Examination of significant contracts entered into close to year end to ensure revenue recognition is made in correct period.

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
	<p>Inappropriate assessment could lead to a risk of revenue being recognized on sale of goods before the control in the goods is transferred to the customer. Subsequent adjustments are made to the transaction price due to grade mismatch/slippage of the transferred goods.</p> <p>The variation in the contract price if not settled mutually between the parties to the contract is referred to third party testing and the Company estimates the adjustments required for revenue recognition pending settlement of such dispute.</p> <p>Such adjustments in revenue are made on estimated basis following historical trend.</p> <p>Inappropriate estimation could lead to a risk of revenue being overvalued or undervalued.</p> <p>Accordingly, timing of recognition of revenue and adjustments for coal quality variances involving critical estimates is a key audit matter.</p>	<ul style="list-style-type: none"> - Testing a sample of contracts from various revenue streams by agreeing information back to contracts and proof of delivery as appropriate and ensure revenue recognition policy is in accordance with principles of Ind AS 115. <p>Our testing as described above showed that revenue has been recorded in accordance with the terms of underlying contracts and accounting policy in this area.</p>
2	<p>Inventory:-</p> <p>The group has carrying value of inventory as at 31st March 2022 is Rs. 735.17 crore. The inventory is valued at the lower of cost and net realizable value.</p> <p>We considered the value of inventory as a key audit matter given the relative size of its balance in the financial statements and significant judgment involved in the consideration of factors in determination of selling prices such as fluctuation of raw materials prices in the market and in determination of net realizable value. (Refer Note No.5 to the consolidated Financial Statements)</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory. - Assessing the appropriateness of Company's accounting policy for valuation of stock-in-trade and compliance of the policy with the requirements of the prevailing Indian accounting standards. - We considered various factors including the actual selling price prevailing around and subsequent to the year-end. - Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value. <p>Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.</p>
3	<p>Carrying Value of Trade Receivables and Advances-</p> <p>The collectability of the Group's trade receivables and Advances (Including Trade Advances), the valuation of allowance for impairment of trade receivables and provision for bad and doubtful debt require significant management judgment. As per the current assessment of the situation based on the Internal and external information available up to the date of approval of these financial results by the Board of Directors, the management believes that there is no indication of any material impact on the carrying value.</p> <p>Management uses this information to determine whether a provision for impairment is required either for a specific transaction or for a customer's balance overall. Accordingly, it has been determined as a key audit matter.</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We assessed a sample of trade receivables and advances of the group. - We assessed the ageing of trade receivables and advances, the customer's historical payment patterns and whether any post year-end payments have been received up to the date of completing our audit procedures. - We also discussed with the management regarding any disputes between the parties involved, attempts by management to recover the amounts outstanding and on the credit status of significant counterparties wherever available. <p>In assessing the appropriateness of the overall provision for impairment, we considered the management's application of policy for recognizing provisions.</p>

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
4	<p>Assessment of litigations and related disclosure of contingent liabilities</p> <p>“Use of estimates and critical accounting judgements – Provisions and contingent liabilities”, Note 30 to the Consolidated Financial Statements – “Contingencies”</p> <p>Significant management judgement is required to assess the contingent liabilities to determine the probability of occurrence of material outflow of economic resources and whether a provision should be recognized or a disclosure should be made. The management judgement is also supported with legal advice in certain cases as considered appropriate. Therefore, it is considered to be a Key Audit Matter.</p>	<p>We assessed the group’s provisioning policy and comparing the Company’s provisioning against historical collection data.</p> <p>Based on our procedures, we also considered the adequacy of disclosures in respect of trade receivables and advances in the financial statements.</p> <p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We understood, assessed and tested the design and operating effectiveness of key controls surrounding assessment of litigations relating to the relevant laws and regulations; - We discussed with management and those charged with the governance, the recent developments and the status of the material litigations which were reviewed and noted; - We performed our assessment on a test basis on the underlying calculations supporting the contingent liabilities/ other significant litigations disclosed in the Standalone Financial Statements; - We considered external legal opinions, where relevant, obtained by management; - We evaluated management’s assessment around those matters that are not disclosed or not considered as contingent liability, as the probability of material outflow is considered to be remote by the management; and - We assessed the adequacy of the group’s disclosures. <p>Based on the above work performed, the assessment in respect of litigations and related disclosures relating to contingent liabilities/other significant litigations in the Standalone Financial Statements is considered to be reasonable.</p>

Information other than Consolidated Financial Statements and Auditor’s Report Thereon

The company’s Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including the Annexure to the Board’s Report, Share Holder’s Information etc., but does not include the consolidated financial statement and auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is material misstatement of this information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the Consolidated Financial Statements

The Holding Company’s Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated change in equity and consolidated cash flows of the Group in accordance with the Ind AS and accounting principles generally accepted in India. The respective Board of directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and

fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective board of directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in group is responsible for overseeing the Group's financial reporting process of the group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtained sufficient appropriate audit evidence regarding the financial information of the entities or business activity within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of such entities included in consolidated financial statements of which we are the independent auditors. For other entities included in consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key

audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure - A

Annexure to the Independent Auditor's Report of even date on the Consolidated Financial Statements of Gokul Agro Resources Limited

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of Gokul Agro Resources Limited ("the Holding Company") as of March 31, 2022, we have audited the internal financial controls over financial reporting of Gokul Agro Resources Limited as of on that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of

the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, has maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these

Consolidated Financial Statements were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to a

subsidiary company, which are companies incorporated outside India, is based on the corresponding reports of the auditors of such companies incorporated outside India.

Measurement of Fair Values:

Valuation techniques and significant unobservable inputs:

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Note 39: Financial Risk Management Objectives & Policies:

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The company's financial risk management policy is set by the Managing Board. The Company's principal financial liabilities, other than derivatives, comprise borrowings and trade & other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's principal financial assets include Investments, loans given, trade and other receivables and cash & short-term deposits that derive directly from its operations. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

The company has exposure to the following risks arising from financial instruments: -

- (i) Market Risk
 - (a) Currency Risk
 - (b) Interest Rate Risk
 - (c) Commodity Risk
 - (d) Equity Risk

Notes annexed to and forming part of the Consolidated Financial Statements

For the year ended 31st March, 2022

Note 39: Financial Risk Management Objectives & Policies: (Contd..)

(ii) Credit Risk and

(iii) Liquidity Risk

Risk Management Framework

The Company's activities expose it to variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management is to minimize potential adverse effects of risk on its financial performance. The company's risk management assessment policies and processes are established to identify and analyze the risk faced by the company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's Activity. The Board of Directors and Audit Committee are responsible for overseeing these policies and processes.

In order to minimize any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency exposures. Derivatives are used exclusively for hedging purposes and not as trading/speculative instruments.

(i) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices, commodity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables and payables. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the returns.

(a) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the profit and loss of the company, where any transactions has more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risk primarily relates to fluctuations in U.S. dollar and Euro, against the respective functional currencies (INR) of Gokul Agro Resources Limited.

The company, as per its risk management policy, uses its foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. The company does not use derivative financial instruments for trading or speculative purpose.

Exposure to Currency Risk

Refer Note no. 47 for foreign currency exposure as at March 31, 2021 and March 31, 2020 respectively.

Sensitivity Analysis:-

A 1% Increase/Decrease of the respective foreign currencies with respect to functional currency of company would result in increase or decrease in profit or loss as shown in the table below. The following analysis has been worked out based on the exposure as of the date of statement of financial position.

Currency	₹ in Lakhs			
	2021-22		2021-22	
	1 % Increase	1% Decrease	1 % Increase	1% Decrease
USD	-	-	215.47	-215.47

(b) Interest Rate Risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's exposure to market risk for changes in interest rates relates to borrowings from financial institutions. In order to optimize the company's position with regards to the interest income and interest expenses

Notes annexed to and forming part of the Consolidated Financial Statements

For the year ended 31st March, 2022

Note 39: Financial Risk Management Objectives & Policies: (Contd..)

and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

(c) Commodity Risk

The prices of agricultural commodities are subject to wide fluctuations due to unpredictable factors such as weather, government policies, changes in global demand resulting from population growth and changes in standards of living and global production of similar and competitive crops. During its ordinary course of business, the value of the Company's open sales and purchases commitments and inventory of raw material changes continuously in line with movements in the prices of the underlying commodities. To the extent that its open sales and purchases commitments do not match at the end of each business day, the Company is subjected to price fluctuations in the commodities market.

While the Company is exposed to fluctuations in agricultural commodities prices, its policy is to minimise its risks arising from such fluctuations by hedging its sales either through direct purchases of a similar commodity or through futures contracts on the commodity exchanges.

In the course of hedging its sales either through direct purchases or through futures, the Company may also be exposed to the inherent risk associated with trading activities conducted by its personnel. The Company has in place a risk management system to manage such risk exposure.

(d) Equity Risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of some of the Company's investments in Fair value through profit and loss account, securities exposes the Company to equity price risks. In general, these securities are held for trading purposes. These investments are subject to changes in the market price of securities.

(ii) Credit Risk

Credit risk arises from the possibility that a customer or counter party may not be able to settle their contractual obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is significant increase in credit risk the company compares the risk of a default occurring and the asset at the reporting date with the risk of default as the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i. Actual or expected significant adverse changes in business.
- ii. Actual or expected significant changes in the operating results of the counterparty.
- iii. Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- iv. Significant increase in credit risk on other financial instruments of the same counterparty.
- v. Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

A. Trade and Other Receivables: -

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

Notes annexed to and forming part of the Consolidated Financial Statements

For the year ended 31st March, 2022

Note 39: Financial Risk Management Objectives & Policies: (Contd..)

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	₹ in Lakhs	
	As at 31st March, 2022	As at 31st March, 2021
Past due but not Impaired		
Past due up to 6 Months	20,736.44	54,361.89
Past due more than 6 Months (Including Prov. For Bad & Doubtful Debt)	23.68	1,471.87
Total	20,760.12	55,833.76

The ageing analysis of these receivables (gross of provision) has been considered from the date of the Invoice.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

I. Financial assets for which loss allowance is measured using 12 months Expected Credit Losses (ECL)

Particulars	₹ in Lakhs

Current Financial Assets – Loans	3,367.94	2,450.24
Total	3,367.94	2,474.03

No amount has been written off considering the ECL model as the above analysis had not resulted into any allowance amount.

II. Financial assets for which loss allowance is measured using Life Time Expected Credit Losses(ECL)

Particulars	₹ in Lakhs	
	As at 31st March, 2022	As at 31st March, 2021
Trade Receivables	20,760.12	55,833.76
Total	20,760.12	55,833.76

No amount has been written off considering the ECL model as the above analysis had not resulted into any new allowance amount.

III. Provision for expected credit losses against "I" and "II" above:

The company has assets where the counter- parties have sufficient capacity to meet the obligations and where the risk of default is very low. Hence based on historic default rates, the Company believes that, no impairment allowance is necessary in respect of above mentioned financial assets, except otherwise stated above.

B. Cash and cash equivalents

The Company holds cash and cash equivalents with credit worthy banks and financial institutions of ₹11,728.18 Lakhs as at March 31, 2022 [FY 2020-2021 ₹ 4,329.08 Lakhs].The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

C. Derivatives

The derivatives are entered into with credit worthy banks and financial institution on counterparties. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

Notes annexed to and forming part of the Consolidated Financial Statements

For the year ended 31st March, 2022

Note 39: Financial Risk Management Objectives & Policies: (Contd..)

D. Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties apart from those already given in financials and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

(iii) Liquidity Risk

Liquidity Risk is defined as the risk that the company will not be able to settle or meet its obligations on time or at reasonable price. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation. The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecast on the basis of expected cash flows.

The Company has obtained fund and non-fund based working capital lines from various banks. The Company also constantly monitors various funding options available in the debt and capital markets with a view to maintaining financial flexibility.

As of March 31, 2022, the Company has working capital of ₹ 25,099.61 Lakhs [March 31, 2021 ₹ 14,468.22 Lakhs] including cash and cash equivalents of ₹ 11,728.18 Lakhs [March 31, 2021 ₹ 4,329.08 Lakhs] investments in term deposits (i.e., bank certificates of deposit having original maturities of less than 3 months & more than 3 months and less than 12 months) of ₹ 21,238.14 Lakhs [March 31, 2021 ₹ 19,039.32 Lakhs].
